KRINI CRUDE • VIBRANT

INDUSTRIAL CHEMICALS • AEROSOLS DIVISION

Release Spray

A release agent in aerosol form, for quick, even application on moulds and surfaces.

KEY FEATURES & BENEFITS

- Premium industrial grade formulation manufactured in Chennai
- Consistent batch-to-batch quality and high thermal stability
- Engineered for optimal operational efficiency and equipment protection

APPLICATIONS & USES

- Industrial manufacturing and engineering applications
- Heavy-duty machinery, tooling and fabrication environments
- Compatible with standard industrial metal and construction surfaces

TYPICAL TECHNICAL SPECIFICATIONS

Test Parameter	Typical Value / Result	Test Method / Note
Appearance	Uniform aerosol spray mist	Visual
Propellant	Hydrocarbon propellant (CFC-free)	Eco-safe
Drying Time	Fast drying (10–15 minutes)	Ambient 25°C
Corrosion Resistance	Excellent barrier protection	Standard test
Canned Volume	400 mL standard pressurized can	Standard pack

APPLICATION & HANDLING GUIDELINES

- Ensure contact surfaces or machines are clean and free of heavy contaminants.
- Apply as supplied without unauthorized dilution or contamination.
- Conduct a preliminary trial under site conditions to calibrate optimum consumption.

Packaging: Standard industrial packaging (pails, drums, barrels) • **Storage:** Store in original tightly closed container in a cool, dry place. • **Shelf Life:** 12 months from date of manufacture when stored properly.

Technical values are typical and represent current production data. Suitability should be confirmed by site trials. For industrial use only.
